PROFESSIONAL SUMMARY

Results-driven React Developer with 1 Year of experience in building dynamic, user-centric web applications. Adept at leveraging modern technologies like React, Redux, and Next.js to create seamless, high-performance user experiences. Strong problem-solving skills, attention to detail, and a passion for continuous learning. Proven ability to deliver clean, maintainable code while working in collaborative team environments to meet business needs.

SKILLS

- **Programming Languages:** C++, C, JavaScript (ES6+), TypeScript
- **Web Development:** React, Next.js, Redux, HTML5, CSS3 (Tailwind, MUI), Axios, REST APIs
- **Tools :** Git, GitHub, Postman, VSCode, Firebase .

EXPERIENCE

CubexO

Jan2024 – Nov 2024, Indore

• Datatude

Role: Developer

A Camera Recording Management System that allows users to manage, store, and retrieve footage from multiple surveillance cameras. The system supports live video streaming, footage organization, and secure data storage, designed to improve security operations and efficiency.

• ProcMart

Role: Frontend Developer

An e-commerce platform built with React and Redux, featuring secure user authentication, real-time product catalog management, and a responsive shopping experience. Implemented a seamless shopping cart, order management system, and user profile functionalities for efficient online shopping.

EDUCATION

Bachelor of Engineering (Computer Science)

Malwa Institute of Technology

June 2020 -May 2024

CGPA 7.2/10

Class 12th -MpBoard

New Vision School

May 2019 – May 2020

Percentage – 74.4%

Class 10th - CBSE

Kendriya Vidhyalaya

May 2017 – May 2018

Percentage-72.6%

PROJECTS

Real-Time Chat Application (React, Redux, Firebase)

Built a real-time chat app with React, Redux, and Firebase. Implemented real-time messaging, user authentication (via Firebase Auth), and data storage with Firebase Realtime Database. Managed app state using Redux for efficient data flow and optimized UI/UX for seamless user experience.

E-Commerce Application (React, Redux, Firebase)

Developed a dynamic and scalable e-commerce platform using React, Redux, and Firebase. Integrated Firebase Authentication for secure user login, Firestore for real-time product and order management, and Firebase Hosting for fast, reliable deployment. Utilized Redux for state management, handling user sessions, cart functionality, and asynchronous data fetching. Delivered a seamless, real-time shopping experience with real-time product updates, secure checkout, and smooth user interaction.

CERTIFICATIONS

React-Development IndVibe Solutions

- Completed intensive training in React development at Indvibe, mastering modern techniques for building dynamic user interfaces
